Government of India

MESSAGE

I am pleased to know that 'Eradicate Corruption – Build a New India' has been adopted as the theme for the Vigilance Awareness Week being observed from 29th October to 3rd November, 2018.

Corruption has been identified as an impediment to India's economic development and it poses a threat to India's promising future. As corruption directly affects the economy, its continuance and growth has a detrimental effect on the progress of our nation. Corruption not only erodes economic growth but has a very lasting ill effect on our character and values of the citizen and the nation. Hence, awareness of the value of integrity and the ill effects of corruption is critical.

Aligning anti-corruption measures with market, behavioral, and social forces is, therefore, the need of the hour. Public at large and all stakeholders need to be made aware of the adverse consequences of corruption. Observance of Vigilance Awareness Week is a right effort in this direction.

I wish the Central Vigilance Commission a successful Vigilance Awareness Week and appeal to all concerned to work towards a Corruption Free India with increased vigour and zeal so that we can build a corruption free New India and ensure welfare of all citizens.
